Kampala.

Dear Hiring Manager,

Re: application for a network administrator in post bank Uganda

Here by expressing my interest by applying for the above mentioned position as advertised on the newspaper of august 12, 2023.

I am a Ugandan male aged 30 years old, i am network administrator with five years of experience looking to move into a role with more autonomy over the network infrastructure. I believe that my experience and skills make me a strong candidate for this position.

In my current position at dfcu bank, I have contributed to constructing their interdepartmental network, overseeing the daily status checks and implementing the latest network security updates. I was able to research and recommend security updates that eliminated common security breaches and improved the network's speed by 20%. Through this experience, I learnt that my passion lies in creating stable internal networks through innovation and teamwork. This passion for finding solutions can help post bank Uganda to grow and become more efficient and secure. Once I join organization staff of post bank, I will be able to reduce on security threat on the network system, since am a self-driven person, I will be glad to join the leading network fund to promote the value of this great institution.

Thank you so much for your time and consideration. My master in network administration, my experience in the professional field, and my position working relationship with the leader of your administration team can all contribute to the value of your network administration department. I look forward to hearing from you about setting up an interview.

Please find enclosed copies of my academic testimonials.

Yours faithfully,

Bunooti Aggrey
